

# TRIAL DATA SHEET

## Origin Enhanced Phosphate (OEP)

**Objective:** To compare yields of OEP (DAP treated with Avail) against DAP

**Crop:** Wheat

**Location:** Yorkshire

**Date:** 2012

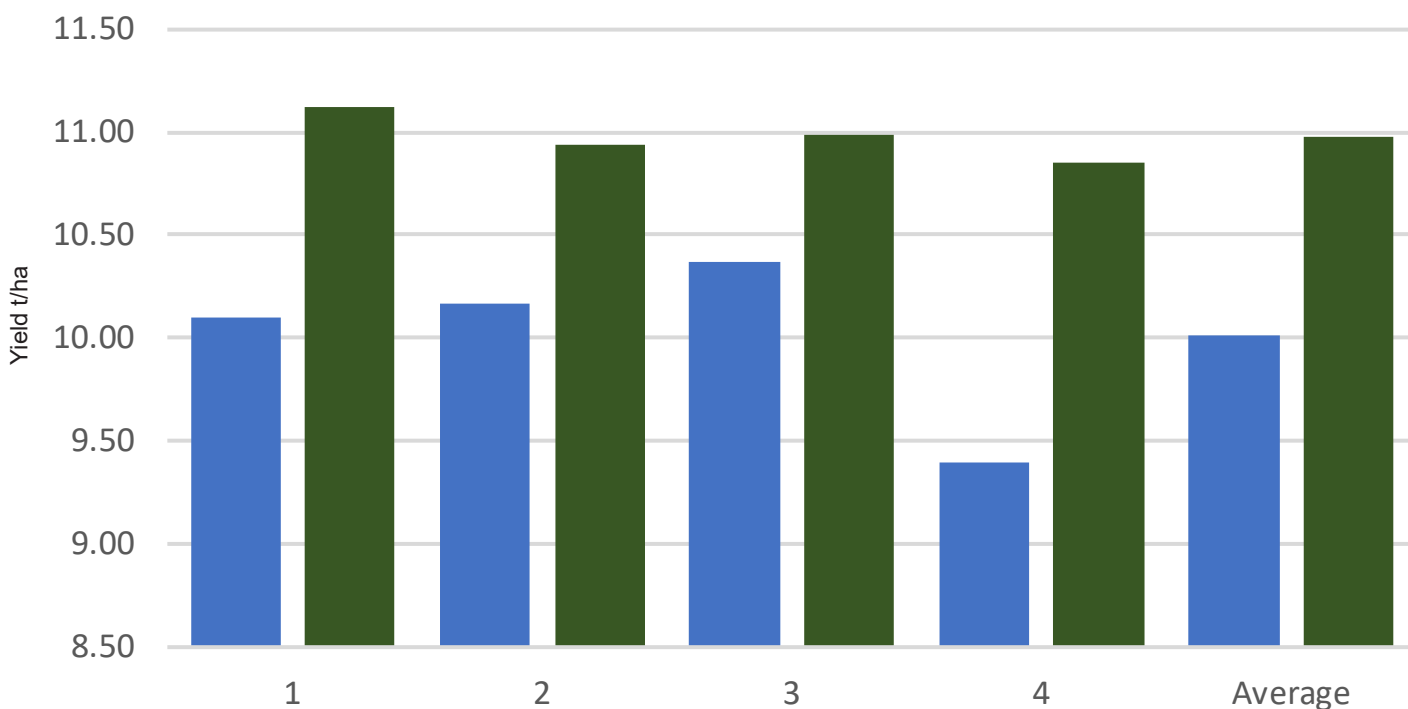

**Researcher:** Velcourt

**Trial code:** 2012/01458

## Results:

Yield tonnes/ha

## Conclusions:

- Across 4 wheat trials, OEP averaged 9% additional yield compared to DAP
- In trial after trial, OEP has been shown to reduce phosphate fixation and boost potential yield by 10-15%
