

TRIAL DATA SHEET

Origin Enhanced Phosphate (OEP)

Objective: To compare yields from a lower rate of OEP (DAP treated with Avail) against standard DAP

Crop: Maize

Location: 4 separate sites

Date: 2008

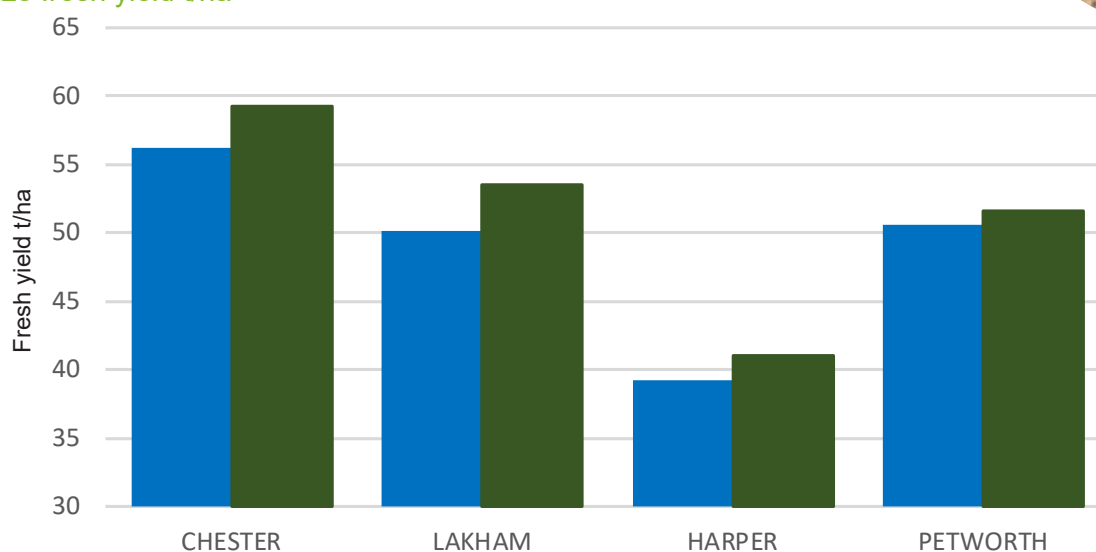

Researcher: Harper Adams

Trial code: 2008/01314

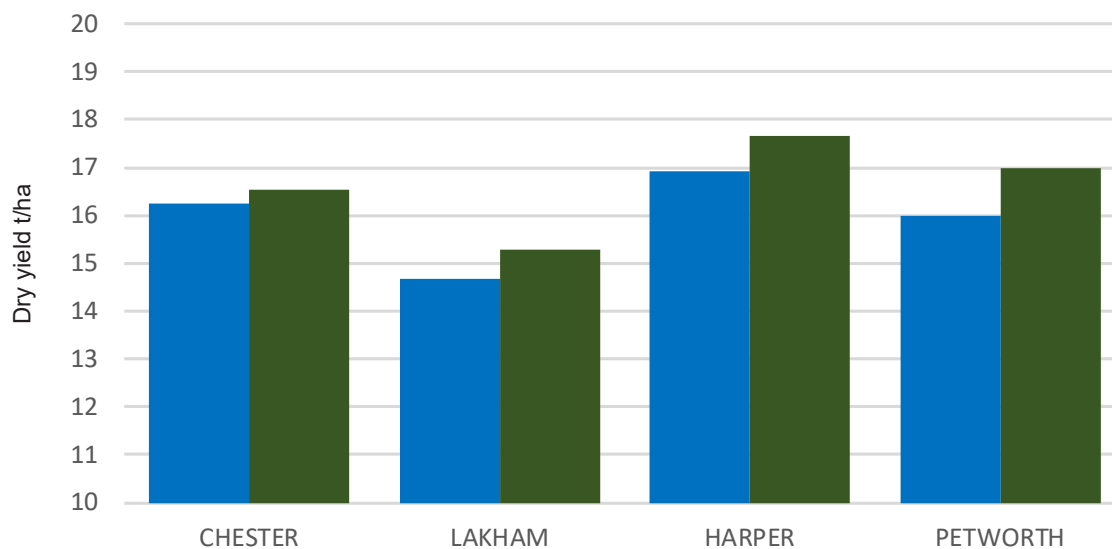

Results:

Maize fresh yield t/ha

Maize dry yield t/ha

Conclusions:

- 62kg/ha of OEP yielded an average of 2.3 tonnes/ha more than the “standard” 125kg/ha rate of DAP
